SUPPORTING CHILDREN THROUGH EXAM STRESS: STRATEGIES FOR PARENTS

(FROM THE FOUNDERS' DESK)

The exam season is fast approaching, and it's natural for parents to experience more anxiety than their children. We have compiled some points on how to handle this anxiety and help your child navigate through the exam times.

Set realistic expectations: Help children understand that their worth is not solely defined by exam scores and encourage them to do their best without undue pressure.

Provide practical support: Assist children in organizing study materials, creating schedules, and finding resources to facilitate effective studying.

Foster a positive mindset: Encourage children to adopt a growth mindset, emphasizing the importance of effort, perseverance, and learning from mistakes.

Manage parental stress: Model healthy coping strategies and avoid projecting personal anxieties onto children, creating a calm and supportive atmosphere at home.

Offer emotional support: Validate children's feelings, offer reassurance, and provide words of encouragement to boost their confidence and self-esteem.

Celebrate effort and progress: Recognize and appreciate children's hard work, progress, and achievements, regardless of exam outcomes.

Encourage open communication: Create a supportive environment where children feel comfortable discussing their feelings and concerns about exams.

Keep perspective: Remind children that exams are temporary challenges and encourage them to focus on long-term goals, aspirations, and personal growth.

Promote healthy habits: Encourage regular exercise, nutritious meals, and sufficient sleep to optimize physical and mental well-being during exam periods.
